

Dear members and friends,

Following the recent restrictions on non-essential group activities, we will cease all club meetings and group activities for the foreseeable future. The committee will meet via phone in early June to review the situation and communicate an update to all members.

Whilst this means we will not meet face to face as a group, we all still have phones, social media and email to keep in touch and chat about all things fishing. The Frequent Flyrodders South Australia Facebook Group (a closed member only group) is a great way to keep in touch and I encourage you to join this group. From April I will begin some posts to share info and kick off some conversations and encourage you to do the same; topics could include;

- Show and tell gear porn
- Favourite fly tying and fly casting Youtube videos
- Knots and leaders
- Tricks and tactics for 'x' fish and conditions
- Share Google maps of fishing locations (yes, I want your secret fishing spots)
- Show and tell your latest fly creations

I also encourage you to share links to any forums and FB pages that others may not be aware of. For starters several members are on saltwaterflyfishing.com.au. A great forum for all things SW fly

I'm sure some of us will manage a fishing trip or two and if you do, tight lines, be socially distant and I look forward to reading your reports.

PS... buy local! Australian fly fishing retailers need us gear freaks more than ever
